

NREL Approved 3rd Party NFPA 70E Training Providers

Listed below are the current training providers the NREL Electrical Safety Office has reviewed and approved. The Office believes these providers are acceptable and their training meets the minimum requirements from NFPA 70E.

- NFPA, Live Virtual Training:
<https://www.nfpa.org/product/70e-electrical-safety-in-the-workplace-2024-lvt/lv70e24>
- e-Hazard, WEBEX Live-Instructor Low Voltage Training:
<https://www.e-hazard.com/arc-flash-training/electrical-safety-training-schedule.php>
- NTT Inc., virtual training:
<https://nttinc.com/course/arc-flash-electrical-safety-based-on-2021-nfpa-70e/>
- AVO 70E Training, virtual or classroom training:
<https://www.avotraining.com/course-schedule/>
- TPC Training, virtual or classroom training:
<https://live.tpctraining.com/>
- OEL Worldwide, Low Voltage Qualified classroom training:
<https://oelsales.com/training-services>
- IBEW-NECA Denver Local, Live Virtual Training:
Courses can be found under the 'Continuing Education' tab at <https://djeatc68.com/>
- The Electricity Forum, Live Virtual Training:
<https://www.electricityforum.com/electrical-training/nfpa70e-training>
- Megawatt Training and Consulting, LLC, instructor-led training using e-Hazard.
(*This training can be provided through other vendors/partners.*):

As we get requests for acceptance of new training providers, we will review their training and determine if they can be added to this list. To be approved by the Office, a new course must be an instructor-led live class, either in person or virtual. **Basic online, self-paced classes will not be approved.**

Email Electrical.Safety@nrel.gov for new requests, attention Mike Day.
